prempareva12@gmail.com 8788798100 preempareva Mumbai

EDUCATION

Dwarkadas J. Sanghvi College of Engineering, Mumbai , 2022 – 2026
B.Tech – Computer Science Engineering (IoT, Blockchain, Cybersecurity) : CGPA: ~8.0 (last 4 semesters ~8.7 avg)

WORK EXPERIENCE

Product Analyst | Media.net Jun 2026 – Present
Analyze AdTech performance and customer acquisition using SQL and Tableau. Investigate A/B experiments, campaign and monetization trends, data discrepancies, and operational anomalies through root cause analysis and data reconciliation. Develop analytical views and reporting to identify performance gaps, validate findings, and support data-driven decisions across lead-generation systems.

AI - IT Executive Intern | RP tech India (Rashi Peripherals Limited)
Feb 2026 – May 2026
Embedded within the AI Centre of Excellence to lead enterprise automation and analytics initiatives across Logistics, Finance, Marketing, SAP, and Operations. Designed Python- and Power Automate-based workflows, Power BI dashboards, and automated MIS reporting pipelines that eliminated manual effort equivalent to ~4 FTEs monthly while standardizing data processes. Partnered with cross-functional teams to deliver digital solutions that enhanced accuracy and operations

PROJECTS

Enterprise Risk Intelligence & Control Assessment – *Finance Domain [Power BI | Excel]*
Developed an interactive dashboard to visualize key audit and financial risk indicators across departments. Automated data validation and summarized control metrics, enabling leadership to identify potential risks 25% faster while improving review efficiency across 5 audit teams and strengthening governance across 5 regional teams.

AI-Powered Enterprise Operations Platform – *IT & Operations Domain [Python | Flask | SAP APIs | Power BI]*
Built an AI-powered enterprise platform integrating SAP data, inventory management, and reporting through a modular architecture with role-based access control and real-time API integrations. Enabled centralized decision-making by consolidating cross-functional operational workflows into a unified platform.

Logistics Intelligence & Automated MIS Reporting System – *Imports & Logistics Domain [Python | SAP API | Excel]*
Engineered an end-to-end automated reporting pipeline applying 4 business rules to flag logistics exceptions including clearance delays and missing transit data. Built an interactive MIS dashboard with KPIs and filters enabling management to identify operational gaps in real time, replacing manual effort. Automated coordinator-wise report generation and delivery

LEADERSHIP & STRATEGIC ROLES

Vice Chairperson - TRINITY (Flagship Event) 01/2024 – 05/2025

- Directed end-to-end operations for a multi-day festival attended by 5,000+ participants.
- Led a 40-member team across sponsorship, logistics, and publicity verticals.
- Strengthened sponsor outreach, securing key partnerships and enhancing event engagement.

PUBLICATIONS

Decentralized Ticketing: A Blockchain Solution for Secure and Fair Event Access 02/09/2025
IEEE HSWTech-2025, MIT-WPU Pune
Co-authored and presented a blockchain-based event ticketing model using smart contracts to enhance transparency, reduce fraud, and enable secure digital asset access.

SKILLS

Technical: SQL | Python | Excel (Advanced) | Tableau | Power BI | Git

Analytics: Product & Business Analytics | Dashboarding | KPI Monitoring | Root Cause Analysis | Data Visualization

Business: AdTech | Digital Advertising | Customer Acquisition | Campaign Performance | Enterprise Automation
